LOCAL NEWS.

Coal Dealers Have Their Say About Prices.

They Are Selling Coal for Just Abou Cost.

The Citizens Will Entertain Gen. Fre mont on His Birthday.

ons Behind—The Freeho te Work - Installations and

For some time past there has been a scarcity of coal in this market, which has at times, almost amounted to an absolute famine. The price went up from \$12 and \$15 a ton to \$20 and \$25, when purchased in quantities of less than a quarter of a ton. There has been much complaint since the rain at the high price of fuel, and there was some talk of holding an indignation meet-ing. It was charged that dealers had taken advantage of the people, and had compelled them to pay the most exorbitant rates for coal, and then levied a further tax upon them by compelling them to pay for delivering it. In order to get an intelligent idea of the situation, and at the sanie time ascertain what prospects were in sight for a reduction in the price, a Times reporter was yesterday detailed to investigate the matter. WALTER S. MAXWELL,

one of the largest dealers in the State, and who for some time past has had a virtua monopoly of the cash trade in this section who for some time past has had a virtual monopoly of the cash trade in this section, was found at his office on Court street. Mr. Maxwell said he knew that he had been blamed by the public for the high price of coal, but that it was not his fault. He had kept the price at \$30 per ton, but when over-crowded with orders during the past two weeks, had charged \$25 when purchased in quantities of less than a quarter of a ton. That is, when anything less than five sacks was taken, \$25 cents additional was charged for delivery. He had a monopoly, as everybody knew, and if there was any disposition on his part to grind the public, he could say the price should be \$30 just as easy as \$20, and that would have to be paid. But he had no such feeling. All he wanted was a fair profit, and that was all he was getting. He had contracts to supply hotels, restaurants and other places in the city, beside looking out for his general customers, and to do this he had frequently to bring coal here by rail at heavy expense to supply the market. He had now 500 tons en route from San Francisco which cost him \$17 per ton on the cars at that city. Of course when his steamer brought the coal, he made more money, but that to come out even all round the price had been kept at \$20. At this figure, Mr. Maxwell claimed that, when it was considered that Los Angeles was 500 miles further south, with an additional freightage of \$3 per ton from tide water to this city, he is now selling coal \$2.50 per ton less than it is being sold at in San Francisco. Mr. Maxwell claimed that brickmakers had come to him for coal, but that he had refused to sell to them, as he preferred to supply the general public. There was no immediate prospect of a reduction in the price, he said, which was governed by San Francisco. It would be reduced, however, as soon as possible. He had taken 210 orders yesterday at his office alone, besides a large number at the yards.

The capacity of the mines was about 40 cars a day. They had a contract with the road to furnish from a third to a half of what they used, and they should be getting about 25 cars a day-here, of which the railroad would be entitled to 15 of 16, but they had been receiving only a contract of the contrac road would be entitled to 15 of 16, but they had been receiving only a carlord or so, occasionally, and, of course, could not meet the demand. E. J. Curson, the general manager of the company, is now at the mines, and it was looped soon to have a full supply onhand. The price of Black Dismond coal, when it commences arriving freely, will be \$12 per ton, but for a while will probably be \$15. The freight from Gallup to this city is \$100 per car of 15 tons. The Black Diamond Company also propose to handle wood from Arizona, and the price will be about the same as coal—that is, a cord of wood for a ton of coal.

RAILBOAD EMPLOYES

BAILBOAD EMPLOYES
are furnished with coal by the companie
at \$10 to \$10.50 a ton, on the cars. It cost at \$10 to \$10.50 a ton, on the cars. It costs from \$5 to \$6 pet ton to have it delivered, bringing the price up to \$15 to \$16. The Southern Pacific employés are furnished with Wellington coal mostly, but some Wall's End is also used. California Central employés get Black Diamond, at the same price.

SEVERAL BETAIL DEALERS
were also seen. They say that the price is
regulated by the wholesale men, and that
they charge \$20 by the quarter,
half or ton, and \$1.35 per sack in
less quantities. In some instances the
price had been put up to \$1.50 a sack, where
the case was urgent and the coal had to be
secured. A number of consumers were
also interviewed. One man claimed that
he had been charged \$2 for a sack of coal,
which he was compelled to carry home on
his shoulders, and another that he had paid
\$3.25 for two sacks.

THE WOOD MARKET. SEVERAL BETAIL DEALERS

THE WOOD MARKET.

There is also some scarcity of wood in the city, which is now retailing from \$14 the city, which is now retailing from \$14 to \$18 a cord, averaging about \$16.

Walter S. Maxwell is the largest dealer, and there are several smaller operators, besides the retail men, who are merely distributors. William Keller is bringing in some pine from Flagstaff, but this is taken exclusively by the brickmakers, and is not adapted for domestic use. It is worth, by the carload, from \$10 to \$12 per cord.

RECEPTION TO GEN. FREMONT

Meeting to Make Arrangements—His 75th Birthday Fixed Upon. A meeting of representative citizens was held in the office of the Farmers' and Mer-chants' Bank at 4 o'clock yesterday after-noon—Mayor Workman in the chair—for noon—Mayor Workman in the chair—lor the purpose of considering the subject of giving a public reception to Gen. John C.

Fremont and wife at an early date. After discussion it was unanimously decided to give such reception, and the time was appropriately fixed for January 21st, the General's 75th birthday. The reception is to be held in some large public hail—either than the properties of the purpose of considering the subject of the purpose of the pur

part of California to meet and greet hkn. There will be ninsie and an oration, but no banques. The following committe ewas appointed to make all arrangements for the reception: Capt. W. H. Bonsall, Mayor Workman, John F. Humphreys, President of the Council, Hon. R. F. Del Valle and Col. H. G. Otis.

A Committee on Finance, consisting of Messrs. Silent, M. M. Bovard and D. Freeman, was also appointed, with power to add two to their number. This committee will call upon citizens to contribute to the expenses of the proposed reception and entertainment, and any excess of funds collected in that way will go into a house to be presented to the distinguished guest. It is known that many liberal citizens would gladly avail themselves of the opportunity to do something in this direction. As an earnest of this feeling, one gentleman, a member of one of the above committees, has already signified his desire to contribute \$1000.

A private note received from Gen. Fre-

A private note received from Gen. Fre-mont yesterday says that he is growing stronger and hopes to soon be able to meet all friends who may desire to honor him with a sail

RAILROAD NEWS.

What Is Being Done All Along the Line.

The overland from the East over the Atchison, Topeka and Santa Fé, due Satur-Atchson, Topeka and Santa Fé, due Satur-day, arrived at 5 o'clock yesterday after-noon, bringing a large amount of delayed mail and a large number of passengers. The overland arrived at Barstow yesterday afternoon at Hodock, and it is now believed that everything will move regularly from this time on. Superintendent Gatt reports that all trains are now running on schedule that all trains are now running on schedule time. He says the track is still a little soft in spots, which necessitates extra caution, and a consequent trifting delay, but that even this will be remedied in a day or two. Freight business is still behind on the Atchison system, owing to the lack of motive power, but as soon as the new engines and rolling stock ordered by the company are delivered this will be remedied. There were no special features at either the depot or the ticket offices of the company.

were no special features at either the depot or the ticket offices of the company.

KNEW NOTHING ABOUT IT.

Brief mention was made in The Times y yesterday morning of railroad building in Antelope Valley, about 30 miles east of Lancaster, where a large gang of Chinamen were at work, and that it was supposed to be for the Atchison, Topeka and Santa Fe. Inquiry at the offices of the company in this city yesterday falled to discover anything about the matter. General Agent Williamson Dunn, when asked what it meant, said he did not know, and asked the reporter if it was really true that such a road was being built. He was sorry, but he could give no information on the subject, as he was not in possession of any. It is barely possible that the following except from a private letter dated, Bakersheld, received by a gentleman in this city, may throw some light on the matter: 'I have been unable to ascertain definitely the course of the road, but there is a contract on record here between Gen. Beale and the Atlantic and Pacific road, under which the road agrees to build a road from Tajon Pass to Bakersfield within two years from last July, and the company now has about 300 Chinamen working in Tajon Pass, turneling and working on the grading. There has been a meeting between representatives from here, Tulare, Freshe and Visalia with parties from Stockton, and they are agitating the subject of building a line (and they guarantee it shall be a competing one) from here to Stockton. This will, I think, mean the Atchison, Topeka and Santa Fé line."

RAHLROAD NOTES.

BAILBOAD NOTES.

A new Pulman steeper Just out and christened the Ethnanda.

The survey of the branch line of railroad frem Seven Palms to Palm Vailey has been completed, and the profile forwarded to San Francisco for approval.

The Southern Pacific is putting in another 1000 feet of track in the upper end of the yard at Pomona, to handle the traffic at that place.

Mayor Workman in the chair.

A communication was received from J.

W. Potts, stating that he had good reason for believing that William Vickery, one of the members of the board, had not been a qualified elector for five years, and was therefore not a legal member, and asking

qualified elector for five years, and was therefore not a legal member, and asking that it be investigated. Referred to the Committee on Judiciary.

The clerk called attention to a communication from Abbott Kinney, published in a morning paper, and on the Mayor asking whether it should be read, and Mr. Kinney's views heard, it was unanimously dispensed with, and on motion of Senator Del Valle it was resolved that hereafter all suggestions, to receive consideration by the board, must be addressed to the secretary, W. Robinson.

The Committee on Corporations not being ready to report, an adjournment was had to Thursday afternoon at 2 o'clock.

At Pasadena Installation.

At Pasadena, on Monday evening, there was a public installation of the officers elect of John F. Godfrey Post and Relief Corps, also of Phil Kearney camp, Sons of Veterans. The officers of the post were installed by Capt. Thornton, Past Commander of Stanton Post, and the officers of the Relief Corps were installed by Mrs. Amy C. Brown, Past President of Frank Bartlett Corps, No. 7, of Los Angeles. The Sons of Veterans were installed by Lieut. Col. Darracott. Mrs. Eleanor C. Ransom, Past Department Chapiain, of Frank Bartlett Corps, made some very appropriate and interesting remarks, which were heartily received by all, especially the veterans. There was a large attendance, and the pleasant evening was enjoyed by all.

Masonic Installation.

The installation of officers of the Signet Chapter No. 57 of Royal Arch Masons was held last night at their hall, and the followheld last night at their hall, and the following officers were duly installed: High Priest, T. H. Ward; King, George C. Knox; Scribe, John C. Haskell; Treasurer, L. C. Goodwin; Secretary, R. F. Millard; Capt. of Host, Matthew Carr; Prince Sojourner, N. H. Murray; Master Third Vail, J. Bernstein; Master Second Vail, Charles Bell; Master First Vail, John A. Kingsley; Guard, John McIlmoil. After the installation services the Past High Priest was presented by the members of the chapter with a handsome gold-headed cane, after which the members adjourned to the banquet hall, where an excellently laid out supper was duly appreciated.

A.O.U.W.

A.O.U.W., No. 191, held their installation services last night at Masonie Hall. After the opening services, the following officers were installed by District Deputy A. W. Mackay: Past Master Workman, S. R. Douglas; Master Workman, James Booth, Foreman, T. H. S. Milier; Overseer, W. D. S. Harrington; Recorder, Homer C. Ratz; Receiver, E. C. Glidden; Financier, T. P. Phillips; Guide, John Hughes; Inside Watch, J. S. Ewing; Medical Examiners, Drs. H. S. Orme and D. G. MacGowan.

Breene, but His Creditors Won't Have It That Way-Several Victims in Los Angeles.

The society people of Pasadena are in a great state of excitement over the sudden disappearance of I. W. Bird, a young Englishman who has been doing quite a biness in that city. As the story goes, B first put in an appearance in Pasade about the 1st of December last. He see

BURTON-MURPHY.

The Runaway Couple from the N. C.

B. Out on Bail.

Yesterday morning's Trues gave a full account of the queer antics of A. F. Burton and Mrs. Murphy of Stanislaus county, who came down here about two weeks ago and took up their residence at No. 509 Downey avenue, East Los Angeles. As was stated yesterday, Detective Harry Johnston arrested the couple and locked them up in the City Prison. Early yesterday morning they were taken before Justice Taney, to plead. Burton, who adopted the name of Murphy as soon as they left the lady's home, was charged with grand larceny, as it is claimed that he dot only ran off with the woman, but also got away with some of her husband's money. He pleaded not guilty, and was admitted to bail in the sum of \$500. The woman, who says her name is Murphy, and was admitted to bail in the sum of \$500. The woman, who says her name is Murphy, and was charged with adultery, was arraigned. She pleaded not guilty, and her bail was fixed at \$500, which was given. It is said that her name is not Murphy, and that her busband will be down here in a few days, when some highly sensational developments will be brought out. The lady is said to have some property here, and her friends say that she is not to blame for running away from her husband.

Prank Toal.

About two years ago Frank Toal was arrested and prosecuted for beating his wife. He was convicted and sent to San Quentin for a term of 8ve years. A few weeks ago he was pardoned out by Gov. Waterman, to

He was convicted and sent to San Quentin for a term of five years. A few weeks ago he was pardoned out by Gov. Waterman, to the great surprise of the people of Southern California. His wife begun proceedings for divorce, but before a decree was issued Toal put is an appearance, and yesterday morning the couple stood before the bar of Judge Gardiner's court, and in humble tones asked that the complaint be dismissed. It is not known whether Gov. Waterman's sudden appearance in Southern California had anything to do with this strange union or not.

The Loss Boys.

It was reported on the streets pesterday that the Monrovia boys had been found. It was stated that their dead bootles had been found buried in the snow. It seems that

Williamson, who has been waiting in the County Jail for examination for stealing horse and buggy, has been recommed escaped prisoner from folians, and yesterday taken to that cambilatine fill out his term. After in gets the with Folsom, be will be returned be gette out a term for stealing a horse

The tone of Col. Mendell's report is
cautious and not over-encouraging upon the
project as a financial venture to be commenced hastily. And he plainly says that
harbor works are expensive and subject to
many contingencies.

Investigate This.

Santa Ana is today the best and most prosperous town in Nouthern California and is having an unperalleled growth. The territory surrounding and tributary to it is the flaces section of country in Southern California, and will sustain a city of the present size of Los Angoles. It is a railroad center, has a good harbor within a few miles, and is the commercial metropolis of the great Santa Ana Valley. There will be a grand oxcursion and auction sale of & lots in the Orange Grove tract, on Wednesday, January 11th. This land lies right in the heart of the flue regidence district on Main street, and is the best property ever offered at auction.

Santa Ans is Beeming.

Over 300 new buildings in twelve months elegant brick hotel; population trebled las year; junction of Southern Pacific and Atch son, Topeka and Santa Fe; two more rail roads assured. Grand excursion and auditionale of Orange Grove tract, Wednesday, January 11th

### Business and Residence Lots!

Wolfskill avenue is 100 feet wide, and four of its principal avenues are 80 feet wide.

A strip of land—300x1900 feet in size—fronting on Alameda street, between Fourth and Sixth streets, containing 13 acres, was donated by the ewners to the Southern Pacific Railroad Company, who are now building upon said land its general passenger depot, similar in design but more elaborate and expensive than the Arcade depot at Sacramento. The ground-plans and elevation of this depot, one of the finest in the world, are now on view at our office. The building will be 567 4-12 feet long and 141 feet wide; the main approach and entrance facing Fifth street and Wolfskill avenue, the trains entering the depot from Alameda gide. The building will be constructed of brick, stone, iron, glass, and fittings in natural wood, and will be one of the finest structures of the kind in America, being completed with every convenience for the traveling publication of the street leads from the most valuable—part of the city, and the tract itself is within four short blocks of the new postoffice site and the very heart of Loc Angeles. We have never before had the pleasure of offering as fine a piece of property to the public in the whole twenty years of our real estate experience, and we personally recommend this tract to all of our friends and acquaintances, feeling sure they will double their money in 6 months. TRRMS—One-third cash, one-third in six months, one-third in twelve months. Interest on deferred payments appeared to the contract of the centre of the centre

## 1100 LOTS IN THE TOWN OF INGLEWOOD,

AT PRICES RANGING FROM

\$250 to \$350 Per Lot. 1-3 Cash, Balance in 6 and 12 Months.

Within three months this property will sell at double these prices. Stick a pin there. Streets 60, 80 and 100 feet wide. A boulevard encircling the town, 140 feet wide. All the streets graded.

### THE FREEMAN COLLEGE OF APPLIED SCIENCES!

With \$600,000 Endowment, Lecated in this Tract and on my Property.

# The Santa Fe Railroad Running Through the Center of the Town!

And through my tract, and now being graded from Inglewood to Redondo Beach, 8 miles distant, where the largest ocean steamers and sailing vessels will connect with the Santa Fe road.

The road to be complete by February 22, 1888.

There is an absolute certainty of Redondo Beach developing into a harbor for coast and foreign trade, as well as a high-class summer resort. Lumber for building in Inglewood guaranteed at \$25 per thousand.

# WATER IN ABUNDANCE! NOT TO BE DEVELOPED, BUT THERE NOW! And Piped in Front of Every Lot.

A perfect system of water works, designed by Wm. Ham Hall, State Engineer, now under construction. Engines and pumps already arrived in Los Angeles. Pipe-lines and three reservoirs---capacity one million gallons each---nearly finished.

Hotels, boarding-houses, stores, etc., contracted for and under construction now. Gen. Fremont's residence to be built at once.

Under consideration now, a proposition to build thirty-five elegant cottages.

The projection of motor roads and street car lines, running in various directions from Inglewood, is under consideration. These will tend to centralize and build up the town independent of Los Angeles.

### ==INGLEWOOD==

Has 200 Square Miles of the Most Fertile Land in Southern California Immediately Around It!

It is the peer for natural advantages and future prospects of any of Los Angeles' suburbs, and will be on the west what Pasadena is on the east of Los Angeles. INGLEWOOD is only 5 miles from Los Angeles.

Note above prices. They are one-half the valuation placed on surrounding property. I will hold them for 15 days.

THE TIMES-MIRBOR COMPANY. TIMES BUILDING, cor. First and Fort sts., Los Angeles, Cal

## The Times.

BY THE TIMES-MIRROR COMPANY. ALBERT MCFARLAND.
Proat., Treas. and Business Manag
WM. A. SPALDING, Secretary.

DON M. DICKINSON of Michigan the new Postmaster-General. We hop that Don won't act as vile as the lat bent has done toward this coast. He certainly can't act worse, if h

UNDER the new regime of Mr Kuhrts, a life and energy have been infused into the street work that causes mers to open wide their eyes in ent, newcomers to utter ap proving remarks, and even the veter ans among the hack horses to prick up their ears. Gangs of men are at work ng the streets, building crossings making our thoroughfares pass if not sightly. Let the good work go on. It has been too long delayed, but it is never too late to mend—or to -and THE TIMES sincerely wisher ere power to Mr. Kuhrts's elbow.

EASTERN passenger agents report that sales of tickets to California began to fall off very considerably toward the middle of December. This decrease is very easily explained. Per-sons intending to come to California, either for residence or on a visit, would her for residence or on a visit, would turally, when it got to be within 10 ys of Christmas, prefer to wait a uple of weeks longer and spend the lidays with the old folks at home. Three or four large excursions from the East are already on the road, and expect as many newcomers as we are able to take care of—and more too.

THE movement to give a public re-ception to Gen. and Mrs. Fremont has taken shape, as will be seen from our local columns. At the meeting yester-day it was decided to hold the reception on the 21st inst., which is the ven-erable soldier's 75th birthday. After considerable discussion it was thought best not to attempt anything in the sive affair, but hold popular reception, without any re-trictions as to dress, so that the ordinary citizen, in every walk of life, may no hesitation in calling to add his ng to the general welcome ex-i by the new Southwest to the and his amiable and talented wife. To enliven and add interest to the occasion, there will be an oration and music. If possible, a native California speaker will be secured Our citizens will doubtless turn out in great numbers on this occasion.

#### That Postoffice Site.

In its usual whining and deprecating manner, the Trombone finds fault with the "coarse and brutal" remarks we made recently in regard to the calling of bids by the Government inspec-tors for a new postoffice site. We repeat that this manner of hunting for a cheap location is unworthy of a great lowing with a Republican surplus, an an effete and impotent Demoadministration is unable to Especially is this true, when, as in this case, our postoffice pays a very large annual profit to the Government. The location of the postoffice in Los Anglese has become as distinctly an the brass bands, the free and the handbill. was located on Spring, near First, a great rise in values followed. That ation was very central, but the liding was much too small. Then nt building was given, rent , by parties largely interested in ts in that neighborhood; for the purpose of endeavoring to keep from moving away from the old center. The location is inconat, being almost on the extrem northern verge of the business quarter. Next came the location of the federal diding, to include the postoffice, hich, by some rather peculiar was secured for a point Main street, beyond Fourth, ation twice as far south of the business center as the present location is too far north. Of course, an imse rise in the value of adjoining stances as much as 400 per cent.—to the great profit of the long-headed patriots who had generously sold Uncle Sam the site at half what it cost them.

And now, it is proposed to again give onr real-estate owners and speculators syndicates a chance to clean up : ndred thousand, at a cost to ves of a couple of year's rent of a building, and to the public, if possible, great incruvenience and annoyance. This thing is not only undignified, but indecent and unjust. Let the United States Government select the most central and convenient site and pay for it what it is worth. It can afford to do so, and Los Angeles has a right to demand that it be done.

backed down as soon as the trainmen were made aware of what had happened, and they found the cer in flames, although most of the passengers escaped with but little injury. The rear brakeman, Harris, was seriously hurt. Everything possible was done by the railrond officials for the care of the injured. Two doctors were sent from Sunney to the seene of the wreck. None of the passengers who were injured are from Los Angeles.

With the rapidly-growing importance of our commerce, it will never do for Los Angeles to depend for deep-sea accommodation upon a place so distant as San Diego, even were there no rivalry between the two places. We have a very fair port at San Pedro, but it leaves considerable to be desired, and anything which promises to add to our shipping facilities becomes a matter of great importance.

The cove at Redondo Beach has been a neglected spot for years. Ever since Santa Monica was founded, by the building of the railroad to that city, the old bathing resort at the salt works has been lost sight of, and the fact that there was deep water close in to shore at that point—a fact known to very few people—has been overlooked. Now, we are told, by an excellent authority upon such subjects, that this is a splendid open roadstead with facilties for the creation of an interior dock for deep draft vessels. It is somewhat remarkable that

somewhat a place which possesses as many advantages as are claimed for this, should have been overlooked so long. This may be accounted for,

cific improvements.

It is claimed for Redondo Beach that the deepest draft vessels can there be brought immediately alongside of cars. If it is true that we have here a landing, or port, where vessels drawing from 25 to 28 feet of water can come immediately alongside of cars, the discovery of this place will certainly prove of much importance to this city. With a deep-sea port, we could build up a trade with Asia. Through freights will not stand literage, although we have to submit to it for local shipments. Of course, all this belongs, so far, to the realm of projected improvements. Many schemes have been set on foot for the creation of new ports in this country, but so far, little has been as

remark to him. Hot words followed, when the two men picked up a couple of wine bottles and went at each other. Both were badly cut. De Vasquez was arrested and brought to the statum, when he was re-leased on giving ball. The waiter was not arrested, as the Doctor was clearly the ag-gressor, and he made considerable fuss over the fact that a "gentleman should be ar-rested, while nothing was done to a com-mon waiter."

Forty Miles East From Los Angeles

GREAT CUCAMONGA VALLEY,

About three miles to the west may be see the old, world-renowned Cucamonga vine yard; to the north, the fine new town of North Cucamonga; to the northeast is the village of Etiwanda, and to the southeast. Bivasside to the northwest, about the same distance he southwest is the rich and prolific Chinch, South Cuckmonga being thosgreat or James P. McCarthy, Agent.

The climate of any section being dependen

The water supply is inexhau stible, and, b ing from never-falling mountain springs, is abselutely pure. It is conducted in iron pipes, which are already laid throughout the streets

The soil is superior and rich sedimentary deposit, of extraordinary depth, is loose and easily worked, and retains moisture for a great length of time, requiring very little irrigation. Those who are thoroughly competent to judge have pronounced Cucamonya, takgatton. Inose was are theroughly competent to judge have pronounced Queamonga, taking soil and climate together, to be far superior to the famous Duarte and Riverside orange bott for raising oranges, lemons, etc., while it is entirely free from scale. The comtracts, with water, adjoining the town site of

No new town in Southern California has brighter prospects for becoming a railroad center than South Gueamongs. Already it has two great continental lines, the Southern Paific forming the boundary line to the South the Atchison, Topeka and Santa Fe a short distance to the North, with two projected lines—one to Riverside and another to Sait Lake City.

A fine new passenger and freight depot, just completed by the Southern Pacific Railway, adds greatly to the comfort of travelers and general attractions. Over thirty trains pass through Cucamonga daily.

To secure the comfort of visitors, the fine new hotel belonging to the company has been opened under the management of a thor-nughly competent hotel man. No expense has been spared in the appointments and fur-nishing to make it first-class in every respect, while the rates will always be reasonable. The grounds surrounding the hotel and in be park adjoining have been tastefully laid

A sojourn at this pleasant botel, where within easy reach are the picturesque mountain trails, the grandly beautiful cañon and irresistably charming scenery of mountain, glen and valley, will be found vasily condu-

SOUTH CUCAMONGA

ness center.

Owing to its great richness the soil produces the finest oranges and lemons grown in the State, peaches, apples, pears, figs, almonds and walnuts, and the finest of wine and raisin grapes. As proof of the great fortility of this section—the old Cucamonga vineyard (one of the oldest and finest in the State), adjoining Cucamonga, may be mentioned. The wines produced there having a world-renowned celebrity.

Presight received at South Cucamonga deport.

Freight received at South Cucamonga dep Freight received at South Cucamonga depot, for the year 1887, amounts to the enormous sum of 8,322,375 pounds; shipments from said depot for the same period 2,039,025 pounds, thus showing the importance of this rapidly-growing locality as a shipping point for the surrounding country.

A first-class livery stable will be opened immediately.

immediately.

Telegraph, postoffice and express offices are already established, and the company intends shortly to erect a number of fine stores, private residences, and also contemplate the crection of a fine bank building. Lots have been set aside for school and church purposes, park and hotel grounds have been tastefully laid out, and over 20,000 trees planted on the streets of the town.

planted on the streets of the town.

The lots are all good and perfectly level, and the company have placed them on the market at the lowest possible price, in order to enable those buying to realize a handsome profit within a short space of time. Compared with surrounding towns, there are no prices as low. In Ontario, the nearest town on the west, similarly situated lots are now selling at from \$1000 to \$4000.

A town backed by the extensive influence of prominent railroad officials, and such representative men as H. M. Hellman, W. H. Goucher, C. F. Smurr, T. B. Henry, John R. Jackson, A. A. Staunton, H. M. Russell, etc., whose determination is to make it one of the most prosperous towns in Southern California, is assured.

The Cucamonga Land and Improvement Company, during the last few menths, have been sparing no expense in improving and beautifying this splendid property and getting it ready for sale and being now assured of its great success as the coming town between Los Angeles and Şan Bernardino, have formally announced it on the market. As the date of sale commences at 9 o'clock m. on and afte

GRAND EXCURSION

M. HILTON WILLIAMS, M.D., SANTA

The Beautiful—the loveliest of all places.

GRAND CREDIT AUCTION

Of 552 acres of improved and unimproved lands and house, barns, outbuildings, and 100 head of cattle, on

TUESDAY, JAN'Y 17, 1888.

Five hundred and fifty-two acres of the Goodwin Ranch have been subdivided into 5, 10, 20° and 60 acre tracts. This exceptionally cheice piece of land is situated five miles west of Santa Ana, in one of the most beautiful and productive valleys in the State. Santa Ana Valley is 20 by 30 miles in area, and contains 300,000 acres of fertile and wonderfully productive land. All the products of temperate and semitropical regions are here successfully cultivated. This particular piece of land offers extraordinary inducements to home and land seekers, as well as speculators, and is especially adapted for raising corn grain, potatoes, applies, alfalfa, stock raising, also very choice for gardening lands. This soil will produce 100 bushls of corn per acre without irrigation, 700 sacks of onions per acre, and over 200 sacks of potatoes—Better known as the famous peat lands of the Rancho Los Bolsas. Artesian water can be had at a depth of 125 feet, and there are four large artesian flowing wells on the land. This tract lays in close proximity to Santa Ana, and, as everyone knows, Santa Ana is no outside town, but is a growing, thriving, substantial city of 5000 inhabitants, with every indication of reaching 10,000 in three years. It is located on the Southern Pacific Railroad at its junction with the Atchison, Topeka and Santa Fe lines, and has two steam motor street railroads now under construction. motor street railroads now under construction.

Train leaves Los Angeles, at San Fernando and Commercial streets, S. P. R. R. Co.'s Depot, at 9 o'clock a.m. Leaves Santa Ana returning at 4:30 p.m. A band of music accompanies the excursion. Free lunch. Free carriage ride to all excursionists. Fare, round trip, \$1.25.

TERMS OF SALE:-One-fourth cash, balance in 1, 2, 3 and 4 years at 10 per cent. interest on deferred payments. For tickets and information apply at the office of
